**Why Choose Leopik Share?**

Elevate your photography business with our Cloud Photo Gallery, designed to seamlessly manage and share your photos with clients. Our innovative platform offers a suite of powerful features to enhance your workflow and ensure your clients receive their photos effortlessly.

Key Features:

- **Automatic Image Compression**: Save storage space and speed up photo sharing with automatic image compression.
- **Logo Demo Overlay**: Showcase your branding by adding a demo overlay of your logo to your photos.
- **Easy Mobile Photo Selection**: Allow clients to conveniently select and share photos directly from their mobile devices.
- **AI-Based Photo Share Link**: Generate photo share links powered by AI for easy and secure distribution.
- **Automatic Online Gallery Creation**: Effortlessly create online photo galleries for your clients with just a few clicks.
- **QR Code for Photo Share Link**: Use QR codes for quick and easy access to photo share links.
- **Everyone Gets Their Photos**: Ensure that all clients receive their photos without any hassle.
- **WhatsApp and Gmail Notifications**: Instantly share notifications via WhatsApp and Gmail to keep your clients updated.

How to Download / Install Leopik Share Software?

1. Open your browser and go to **http://nixsoft.in**
2. Click on the **Download** button.
3. Click on the **Leopik download** option.
4. Wait a moment for the download to complete.
5. Open your download folder, locate the downloaded zip file, and extract it.
6. You should now see the Leopik Share software.

How to Purchase / Activate Software?

1. Open **http://www.nixsoft.in**
2. Click on the **Leopik** button.
3. Click on **BUY NOW**
4. Choose your desired pack. (Note that 500 hosting points allow you to upload 500 photos.)
5. Enter your contact details and click **Next**
6. Pay using a mobile UPI app by scanning the provided code. Once payment is complete, you will receive an activation code instantly.
7. Open the Leopik Share software and create a new user account (Sign Up) by entering a small studio ID, a new password, and your email ID.
8. Log in with your credentials and click on the **Credits** button.
9. Enter your purchased activation keys and click **Submit.** Activation is now complete.

How to Edit Photographer's Profile Page?

1. Log in and click on **Profile**
2. Enter your studio name, proprietor, address, WhatsApp number, email ID, tagline, and description.
3. Click on the **Save** button.
4. Click on the **Preview** button to view your studio profile page.
5. To upload a PNG logo file of your studio, locate the logo file, drag and drop it into the designated area, and upload it.
6. Preview your profile page. This is important because when you share a photo gallery link, customers will first see your profile page and log in to view the gallery.

How to Create a New Photo Gallery?

1. On the software, click on the **Compose** button.
2. Enter the event title (e.g., pujawedding), event date, photographer's name, customer's mobile number, and a link password. The customer's mobile number and link password will serve as the photo gallery login credentials.
3. Optionally, you can add notes about the event.
4. Click on the **Submit** button to create the gallery.
5. Open your photos folder, select all the photos you want to upload, and drag and drop them into the upload area. Wait for the upload to complete.

How to Share Photo Gallery Login Credentials with the Customer?

1. Log in and go to the **All Links** section.
2. Click on the link you want to share and then click on the **Link Info** button.
3. Click on the **Copy Link** button, then paste it into an email or WhatsApp message and send it to the customer.

How Clients Select Photos with Gallery Link?

1. Share the link info (WhatsApp number and link password) with the customer.
2. When the customer opens the gallery link, they will see the photo gallery.
3. The customer can select photos by clicking the **Select** button and navigate through the gallery using the navigation buttons. They can also leave comments.

How Can I Get Clients' Selected Photos by Gallery?

1. After the customer selects photos using the link, log in to the software.
2. Open the gallery link and click on the **Selected** button to see all the photos the customer selected.
3. Click on the **Copy Selected** button.
4. Go to the photos folder to find the main-selected folder containing all the selected photos.

How Can I Activate / Disable Photo Download Option in the Gallery?

1. If you want to enable the download option for a customer who has completed their payment, log in to the software.
2. Go to the gallery link, click on the **Link Info** button, and then enable the **Download Available** button.
3. **Save** the changes.
4. Click on the **Preview** button. After logging in, you will see a download button on the top right corner of each photo in the photo gallery. Clicking on the download button allows photos to be downloaded without watermarks.

How Can I Delete the Gallery?

1. Once your work is done or if you want to delete a photo gallery, log in to the software.
2. Go to the gallery links and click on the link you want to delete.
3. Click on the **Erase** button and then confirm by clicking on the **Yes** button. The gallery will be deleted instantly.

How Can I Remove the Entire Studio Profile with Account?

1. Open the software and log in.
2. Go to the **Profile** page and click on the **Delete Account** button.
3. Confirm by clicking on the **Yes** button. This will delete all galleries, studio profile, login data, user account, and credentials.

How Can I Use Automatic AI Photo Share by Face Identifying?

1. On the software, click on the **Compose** button.
2. Enter the event title (e.g., pujawedding), event date, photographer's name, customer's mobile number, and a link password. These will serve as the photo gallery login credentials.
3. Optionally, add notes about the event.
4. Click on the **Submit** button to create the gallery link.
5. Do not upload photos yet. Go to **Link Info** and click on **Preview** to view the page with the photo upload option.
6. Share this link to collect customers' face images.
7. Once face collection is complete, go to the **Gallery** option and upload photos.
8. After uploading photos, click on the **Share** option to see the list of clients who uploaded photos.
9. Click on **Start** in Step 1. After analysis, notify customers via Gmail Step2. or WhatsApp Web (requires Firefox browser and WhatsApp Web login for WhatsApp notifications, and Gmail app password for email notifications).

What if the Gallery Expires?

- When a gallery expires, it will automatically be removed from online hosting.
